

An alternative to the very successful **eco12** delivering cost effective, eco friendly welfare solutions.

Canteen facilities for 6 with separate toilet and drying room.

Incorporating voltage sensing generator charging technology.

Diesel heating & 12V LED lighting

The **eco12 Junior** incorporates Environmentally friendly features to reduce emissions, maintenance, fuel consumption, generator hours and noise pollution.

Diesel heating and LED lights mean that the generator is run only to power 240 volt appliances or recharge batteries. The Battery Condition Monitoring system signals when a recharge is necessary.

This model offers cost savings against the **eco12**, whilst maintaining the ease of use and security features of the **EasyCabin** range.

In Summary

- Low in maintenance
- Low in emissions
- Low in fuel consumption
- Compliant with HSE regulations

Whole Vehicle Type Approval, EEC Directive 2007/46.

(Approved for export throughout Europe)

Energy Performance Asset Rated

READY TO USE IN 30 SECONDS

Construction Specification

- Walls:** Constructed from unique patented (2448660) high strength composite panels. Galvanised steel exterior, seamless GRP interior and high density foam insulation, provides rust free and washable surfaces.
- Roof:** Seamless insulated composite panel.
- Floor:** 15mm phenolic faced marine ply.
- Wheels:** 195R 14" Low profile wheels & tyres.
- Chassis:** Heavy duty galvanised steel.
- Axle:** Electric type approved hydraulic axle.
- Doors:** 3 x high security composite doors with 2 deadlocks. Double doors to generator with 2 deadlocks.
- Window:** Aluminium with security door locked internally with thumb turn deadlock.
- Lights:** EEC approved built in road lights with removable number plate brackets.
- Weight:** Gross weight 1800Kg - Unladen weight ONLY 1650Kg

As part of our on-going commitment to improvement we reserve the right to alter specifications or design without prior notice. All dimensions are approximate.

eco12 Junior

Specification

Power

- High cycle AGM battery
- Battery charger
- Battery Condition Monitor
- Diesel Kubota engine generator
- 48ltr diesel tank
- 12 volt Hydraulic pump
- Low level fuel cut off

Canteen

- Table & bench seating for 6 people
- Eberspacher blown air heating system
- Microwave / kettle
- Durable stainless steel worktop
- Stainless steel sink
- Hot wash to sink 240 volt
- PIR activated 12 volt LED lighting
- Carbon monoxide detector
- Fresh, waste & drinking water containers
- Soap dispenser
- Towel dispenser
- Cup dispenser
- 12 volt charging socket
- Low battery light indicator
- Digital battery voltmeter
- Consumer unit with electrical certificate
- Generator timed controller with hour meter
- Fuel gauge

Drying Room

- 6 x coat hooks
- PIR activated 12 volt LED light
- Blown air heating outlet
- Earth rod

WC

- Re-circulating flush tank toilet 170 litre capacity
- Sink to wash up to forearm
- Hot wash to sink 240 volt
- Coat hook
- Soap dispenser
- Towel dispenser
- Toilet roll holder
- PIR activated LED light

Options

- Non-hydraulic axles
- Fire extinguisher
- First aid kit
- Lifting eyes
- Ceramic flush toilet
- Cold wash WC sink
- 12 Volt Hot wash to WC sink
- Solar Panels

eco12 Junior

Energy & Cost Savings

Based on a 40hour week. Compared to a 6kva generator. Red diesel at 90p/litre.

- Diesel Saving **3,390trs / £3,050**
- Maintenance saving **£1,500**
- CO2 emission saving **9,157kgs**
- Engine hours saved **1,800**
- Uses just **15ltrs** diesel / week
- Low in noise pollution
- Long sustainability

Total saving per year **£4,542** or **£22,710** over 5 years at 100% usage

Total saving per year **£3,179** or **£15,897** over 5 years at 70% usage
